

Biography

Department of the Army

Mr. Nathan Colodney

DEPUTY DIRECTOR, CYBERSECURITY

Mr. Colodney has extensive experience as a Chief Information Officer (CIO) in large and small organizations, with hands-on management of cyber security in US and Combined (Republic of Korea/US) environments, and with the management of IT operations. He successfully led bilateral negotiations with the Republic of Korea (ROK) Joint Chiefs J6 regarding C4I requirements for OPCON transfer, while remaining unwavering regarding US cyber security standards for connections to ROK systems and operational requirements for secure communications between ROK/US forces throughout the Korean Theater of Operations. Past assignments include Joint service as a Division Chief in a CoCOM and a Sub-Unified Command. Additionally, he has been a government contracts attorney and hospital administrator. He has been the Deputy to the Army Chief Information Security Officer/Deputy Director of Cyber Security for Headquarters, Department of the Army, since June 2022.

His educational background includes a Bachelor of Arts in Political Science from Purdue University, Master of Arts in Internal Relations from Boston University, Master of Business Administration from Indiana University, Juris Doctor from George Mason University, and a Master of Science in National Resource Strategy from the National Defense University. He is a graduate of the Air Command and Staff College and the Eisenhower School at the National Defense University.
